

Ohio Revised Code

Section 1510.02 Technical advisory council - powers and duties.

Effective: December 19, 2016

Legislation: House Bill 471 - 131st General Assembly

(A) In accordance with this chapter, the technical advisory council shall do all of the following:

(1) Establish procedures by which producers in this state may propose, develop, and operate a marketing program to do all of the following:

(a) Demonstrate to the general public the importance and economic significance of the oil and natural gas industry in this state;

(b) Encourage the wise and efficient use of energy;

(c) Promote environmentally sound production methods and technologies in the industry;

(d) Support research, training, and educational activities concerning the industry.

(2) Establish procedures necessary to implement and administer this chapter;

(3) Determine the eligibility of producers to participate in referendums and other procedures that may be required to establish a marketing program for oil and natural gas.

(B) The council may conduct business by a majority of those members voting without need of a quorum.
